Full info about:

10-2392
Straight and reinforced thumb for better handling of MIG guns.

The Weldas general purpose welding gloves are made of heat and flame resistance shoulder split cowhide.

A 34 cm / 46 cm length glove.
Its straight thumb construction and reinforced thumb strap design make it more suitable to handle MIG guns. The 3 ply Kevlar® stitching and the fully welted seam offer more seam strength and protection.
A “sock” style fleecy cotton lining is included for comfort.
