Professional's choice world wide

WELDAS®

The professional's choice world wide

Weldas® on going product development and quality control supported by field testing has earned a worldwide reputation for the highest quality and most innovative products.

Weldas® products are marked with appropriate EN marking standards and are manufactured in our own, by TÜV, ISO certified factory. Most of the Weldas products are certified according to the applicable European Norms which can be found on www.weldas-ce.com. For the Russian market, EAC certificates are also available.

The pH, CHROMIUM (VI) and PCP levels of all materials in Weldas® products have been tested and meet CE health standards. Colouring is done by natural materials.

Weldas® also offers a custom designed product line for special application and marketing needs in models, packaging, barcode etc.. For more information on this contact Weldas®.

Weldas® products are warranted against manufacturing defects. Because of applications vary, it is the user's responsibility to select the right product for each application.

Weldas® is active in the following markets:

- Welding market.
- Personal protection market.
- General industrial market.

WELDAS®

Distributor support

Training on Weldas® products and services doesn't stop with the types of leathers and/or linings but also why a certain type and/or model has been chosen. It is also how products are sewn, what threads, buttons, hooks and loops, zippers etc. are used.

All this makes the Weldas® product to what it is and what it is known for: a quality product.

Since practically all the Weldas® products are tested and certified according to European norms we also have to train our distributors on the requirements that there are under European Personal Protection Equipment (PPE) laws and rules (European norms).

Through training sessions and via our website Weldas® hopes to contribute to the expectation that the end user has of our wide range of products.

Next to the welding gloves and clothing you will also find comfort and safety through our caps, doo-rags, hoods, helmet sweatbands, welding pillows, welding screens and curtains and more.

Weldas® brands and trademarks:

COMFOflex®

Scientifically designed lining, manufactured from the finest materials, to provide heat-resistant protection as well as high comfort in, mainly, welding gloves.

DEERSOsoft®

Deerskin gloves for high comfort and fingertip sensitivity. These deerskin gloves are designed to mold to the hand because of the softness of the leather.

LAVAshield®

Welding screens and blankets provide protection from flying sparks, spatter, UV radiation, dirt and other on-job hazards especially with welding.

STEERSOtuff®

Products under this brand name have a combination of the highest quality materials with the highest comfort for the user.

SWEATSOpad®

Unique, innovative and field-tested helmet comforter and sweatband in one piece, for all kinds of helmets: welding, construction, medical etc.

TURMOflex®

Helmet and glove lining to provide extra warmth and comfort in cold-weather work environments because of the specifications of this lining.

Yellowjacket®

Leather mechanics gloves and high-heat welding gloves, plus a hybrid jacket in side-split leather and flame-retardant cotton.

COMBOframe™

Modular welding frame, adjustable to fit both 1,8 and 2,4 meter wide screens, combining high durability with extreme versatility.

Fire Fox™

Full range of clothing, doo-rags, caps and hoods. The flame retardant products in this range are manufactured of 305 grams/meter flame retardant cotton.

Golden Brown™

Range of economic models of welding gloves and clothing but still with a quality that is of a higher level of practically every other brand in the market.

Lava Brown™

State-of-the-art, A grade side-split leather full range of clothing such as jackets, bibs, sleeves, aprons, chaps, spats, leggings etc.

PYTHONrap™

Leather and nylon covers to extend the life of torches and cables and protect them from dirt, abrasions etc., available in various diameters/lengths and closures.

SOFTouch™

TIG gloves manufactured with premium leather, provides an excellent fit, plus, several models with a seamless, unlined index finger for unobstructed control.

ThunderingBison™

Product range manufactured of the finest leathers of American bison providing high mechanical values in combination with the highest comfort available.

Arc Queen™

A For ladies shaped Lava Brown™ jacket model in order to give them also the highest level in comfort and protection.

Arc Knight®

State of the art clothing line, featuring cool, breathable, heavy-duty (520 gr/m2) FR cotton combined with quality leather where protection is needed most.
